Notes relating to Domestic Electrical Work

The Council will require that you provide certification of satisfactory testing and inspection for all work not carried out under the Competent Persons Scheme.

This requirement may unfortunately increase the cost of the application and may cause a delay (arranging for another electrician to carry out an inspection and test).

Any electrical installation undertaken by someone who is not registered with self-certifying association (eg NICEIC, ELECSA, NAPIT etc) must provide an installation certificate, together with a test certificate prepared by a member of the NICEIC etc. For certain minor work, a lesser qualification will be accepted.
